Papplewick Neighbourhood Plan

Issues Scoping Document & Evidence Base

February 2017
Papplewick Neighbourhood Plan
2017-2028

Issues Scoping Document & Evidence Base
February 2017

Produced by the Neighbourhood Plan Working Group on behalf of Papplewick Parish Council:

Councillor Stephen Walker (Lead)
Roger Barratt
Phil Brealey
Maggie Else
Debbie Fairholme
Councillor Carolyn Hesketh
Richard Hull
Marguerite Hull
Margaret Kerr
Rob Kerr
Helen McNish
Councillor Nigel Penlington
Councillor Stephanie Roberts
Councillor Jules Salmons
Terry Savage
Bob Spencer
Carol Spencer

The Parish Council received professional planning support from Anthony Northcote at NEIGHBOURHOOD-PLAN.CO.UK during the production of this Neighbourhood Plan.

Section 1
Background
The Neighbourhood Plan Process

1. The Neighbourhood Plan process involves three main overarching stages: Designation of a Neighbourhood Area; Plan Production; and Examination. The diagram below sets out a more detailed set of steps:

Process Diagram

© Locality

2. NEIGHBOURHOOD-PLAN.CO.UK were appointed in January 2017 to provide Papplewick Parish Council with professional assistance in the production of the Papplewick Neighbourhood Plan.

Designation of Papplewick Parish as a Neighbourhood Planning Area

3. A formal application was made by Papplewick Parish Council in early 2016 requesting that they be recognised as a Neighbourhood Area for the purpose of producing a neighbourhood plan, in accordance with the Neighbourhood Planning Regulations 2012.

4. Gedling Borough Council publicised this application to produce a neighbourhood plan for a 6 week period during February/April 2016. After reviewing the comments submitted,
Gedling Borough Council designated the Parish of Papplewick as a neighbourhood area on 11 August 2016.

5. In response to the application submitted by the Parish Council, the Borough Council has acknowledged that a neighbourhood plan area that reflects the Parish boundary would be a logical and appropriate area for the preparation of a neighbourhood plan. The name of the neighbourhood area is the 'Papplewick Neighbourhood Area'.

6. The plan below identifies the designated Neighbourhood Area:
Papplewick Parish

7. The ‘parish of Papplewick’ occupies 715 hectares, and is situated towards the west of central Nottinghamshire. The village of Papplewick is located in the west of the parish, surrounded largely by arable and dairy farmland. It is located approximately 12km north of Nottingham and 10km south of Mansfield.

8. Papplewick Pumping Station is a working museum comprising steam-powered pumping engines, cooling pond and grounds. It is situated in open agricultural land to the east of the parish, approximately 1 mile (2 km) east of the village.

9. The 2011 census found 756 inhabitants in 309 dwellings. The parish is bounded to the north by Ravenshead; to the north-west by Newstead; to the west by Linby; to the east by Calverton and to the south by Arnold and Bestwood St Albans. To the south-west lies Hucknall which is located in the District of Ashfield.
Section 2
Local Planning Policy Context
The Greater Nottingham Aligned Core Strategy - Adopted 2014

10. The Greater Nottingham Aligned Core Strategy was adopted in September 2014, it covers Broxtowe, Gedling and the City of Nottingham.

11. The document sets out the strategic policy direction for future development in Gedling Borough. It will be used to help decide planning applications and guide the location and design of development in the borough.

12. The Core Strategy:
   - provides a broad guide to development and growth in the Borough, setting out locations for major sites (over 500 houses)
   - sets out key issues faced by the Borough to 2028
   - co-ordinates policies, priorities and programmes together with the public resources to deliver them

13. The Core Strategy does not:
   - set out specific sites for smaller developments (less than 500 houses)
   - set out detailed policies to control future development

14. A legal challenge to the Aligned Core Strategies was submitted to Broxtowe Borough, Gedling Borough and Nottingham City Councils by Calverton Parish Council. The challenge was subject to a High Court Hearing which took place on 24th March 2015 *Calverton Parish Council v Nottingham City Council; Broxtowe Borough Council; and Gedling Borough Council [2015] EWHC 1078 (Admin).*

15. This challenge involved an application brought under section 113 of the Planning and Compulsory Purchase Act 2004 (“the Act”) to quash, in part, the Greater Nottingham - Broxtowe Borough, Gedling Borough and Nottingham City - Aligned Core Strategies (“the ACS”), adopted by the Defendants in September 2014. The ACS is part of the development plan for each of the three Council’s areas. The challenge related to the approach of the ACS to the review of the Green Belt.

16. The judgement was published on the 21st April 2015 and the legal challenge was unsuccessful such that the Aligned Core Strategy remains a statutory part of the Development Plan.

17. The main implications of the Aligned Core Strategy on Papplewick are:
   - Papplewick is not a designated ‘Settlement’ the in Aligned Core Strategy and therefore it is not identified for any specific growth
   - The neighbouring Parishes of Linby, Calverton, Ravenshead and Bestwood St Albans are all identified for significant strategic growth which may impact upon Papplewick
   - Papplewick is surrounded and ‘washed over’ by the Nottingham/Derby Green Belt
18. Whilst the Greater Nottingham Aligned Core Strategy sets out the overall strategic policy framework for Gedling, more detailed policies and appropriate sites to address the Borough’s development needs to 2028 are to be set out in the emerging Local Planning Document.

19. Consultation was undertaken between May 2016 and July 2016 on the Publication Draft. On 17th October 2016 the Local Planning Document was submitted to the Government for examination. The document sets out a range of Policies on a series of topics, many of which are applicable to Papplewick. This includes policies on the Green Belt:
   - Policy LPD 12 - Reuse of Buildings within the Green Belt
   - Policy LPD 13 - Extensions to Buildings within the Green Belt
   - Policy LPD 14 - Replacement of Buildings within the Green Belt
   - Policy LPD 15 - Infill Development within the Green Belt

20. The Local Planning Document also sets out Policies on heritage, including Conservation Areas and Local Green Space which are relevant to Papplewick. The Local Planning Document does not allocate any land within Papplewick for future development.

21. The Local Planning Document Policies Map illustrates various environmental and other designations covering Papplewick. Within Papplewick these include:
   - Papplewick Conservation Area
   - Papplewick Hall Historic Park & Garden
   - Protected Open Space (3 areas at Village Hall & land to south; Playing Field; and Griffins Head)
   - Green Belt
   - Local Green Space (west of Moor Road)
   - Papplewick Pumping Station Scheduled Ancient Monument and Historic Park & Garden
   - Recreational Route (along former railway line)
   - Local Wildlife Site (6 areas)
22. The Local Plan, which was adopted on 12 July 2005, provides the current planning framework for the Borough alongside the Aligned Core Strategy. The Local Plan will be replaced by the emerging Local Planning Document once it is adopted.

23. The Local Plan identified particular areas as suitable for housing, industry, retail and other uses. It also includes specific policies to control the location and design of development within the Borough and to protect its heritage and local character. Planning applications are assessed against the Local Plan.

24. The Local Plan identifies a number of designations which are relevant to the Papplewick Neighbourhood Plan including:
   - Nottingham and Derby Green Belt
   - Protected Open Space
   - Sherwood Forest
   - Sites of Importance for Nature Conservation
Extract from Replacement Local Plan Proposals Map
25. The Minerals Local Plan was published for consultation during February and March 2016. Whilst the Papplewick Neighbourhood Plan cannot address any minerals or waste matters by law, existing or proposed minerals and waste proposals may impact upon other planning issues being addressed in the Neighbourhood Plan.

26. The Bestwood 2 site which has consent for the extraction of Sherwood Sandstone through to 2023 lies partly within the Parish of Papplewick. A proposed eastern extension lies outside but immediately adjacent to the Parish of Papplewick.
Relationship to Other Neighbourhood Plans

27. Papplewick Parish Council as the qualifying body for the Papplewick Neighbourhood Plan has agreed to work closely with Linby Parish Council as the qualifying body who are also developing a Neighbourhood Plan for Linby at this time. The two Parish Councils have agreed to jointly fund employing a traffic consultant - who will look specifically at the issues related to the roads, including traffic management for vehicles, pedestrians and cyclists. The two Neighbourhood Plans will however be produced separately.

Adjacent Local Planning Authority Area

28. Papplewick lies on the western edge of Gedling Borough, the adjacent land to the south-west is the unparished area of Hucknall which is actually located in the neighbouring Ashfield District. There is no legal requirement for the Papplewick Neighbourhood Plan to have regard to the Development Plan in Ashfield. This is made up of the Saved Policies of the Ashfield Local Plan 2002 and the emerging Ashfield Local Plan.

29. The emerging Ashfield Local Plan is awaiting its Independent Examination to commence and then determine whether it should become part of the Development Plan for Ashfield. The properties in Hucknall on the western side of Moor Road which abut the Papplewick boundary are excluded from the Green Belt and are included in the Main Urban Area Boundary for Hucknall. The undeveloped land which abuts the Papplewick boundary is included within the Green Belt, the woodland south of Papplewick opposite the southern end of Moor Ponds Wood is designated as Green Space.

Strategic Policies for the Purposes of Neighbourhood Planning

30. The system of neighbourhood planning allows Parish and Town Councils to produce neighbourhood plans to guide development at a local level. One of the requirements of such plans is that they should be in line with the ‘strategic policies’ of the adopted development plan for the local area.

31. Gedling Borough Council as the Local Planning Authority defines which policies are to be considered ‘strategic’ with regard to the production of a neighbourhood plan. They consider that in addition to the policies and allocations contained within the Aligned Core Strategy, which are all considered to be ‘strategic’, Gedling proposes that all of the policies, allocations and designations within the Local Planning Document are also considered ‘strategic’ for the purposes of neighbourhood planning. However until the Emerging Local
Plan is adopted the Papplewick Neighbourhood Plan has no obligation to be in general conformity to it.
Section 3
Consultation and Scoping
Initial Neighbourhood Plan Consultation

32. Information and ideas workshops were held in May 2016, these were run as launch events and were held on Sunday 22nd May and Tuesday 31st May in the Papplewick and Linby Village Hall. The meetings were well attended and a wide range of topics were discussed. A list of issues of concern was created, and some agreement on what we wish to conserve and maintain in the community over the coming years. Some 18 people attended the Sunday event and a further 38 people attended the Tuesday event.

Issues & Options Neighbourhood Plan Consultation

33. A questionnaire was circulated in February 2017 to all households in the Parish and some households just beyond the Parish boundary who receive the Papplewick village newsletter. Completed questionnaires have been requested to be returned by 10th March 2017, completed questionnaires can be returned to the Griffin’s Head Public House or the Village Hall in hard copy or to the Clerk to the Parish Council by email.

Scoping Meeting

34. A Neighbourhood Plan Working Group was formed, the group met for the first time on 10th November 2016. They discussed aspirations, and the aims of the plan. They reviewed the feedback from the community meetings held in May 2016. They examined plans issued by other councils and suggested possible areas of interest for the Papplewick Plan.

35. Main Issues for the Papplewick Neighbourhood Plan could be summarised as follows:
Built Environment (Local Character & Heritage)

- Housing Design
- Village & Conservation Area Character
- Integration of Outlying Parts of the Parish
- Local Housing Need
- Protection of the Streetscene
- Relationship to the Countryside

Natural Environment (Green Belt & Open Space)

- Review of The Green Belt Character & Setting
- Protection of Green Space, Parks, Open Land, Footpaths & Woodland
Papplewick Neighbourhood Plan - Issues Scoping & Evidence Base February 2017

Character & Setting, Topography & Right of Way

- Protection of Setting & Topography
- Role of the Rights of Way Network, Linkages Around the Parish & Pavements
- Surrounding Countryside Uses
- Conservation Area & Heritage Assets
- Quality of Building Design & Environmental Impact

Threats from Housing Growth Outside of Parish

- Threats From Scale of Growth
  - Top Wighay Farm (in Linby Parish)
  - North of Papplewick Lane (in Linby Parish)
  - Local Planning Document Site Allocations in Linby, Ravenshead, Calverton and Bestwood Village

- Opportunities From Growth in Adjacent Areas
  - Infrastructure Requirements of Aligned Core Strategy
  - Infrastructure Requirements of Local Planning Document
Traffic & Highways

- Traffic & Highways
- Pollution & Air Quality
- Speed & Volume of Traffic
- Traffic Calming in Village Centre
- Role of the A60 Through the Parish
- Traffic in Village Centre and Impact on Pedestrians & Cyclists
Section 4
Gedling Evidence
Other Planning Policy Evidence Base

36. Policies and proposals must be based on a robust and comprehensive evidence base, in accordance with Government guidance. The Aligned Core Strategy was based on a wide range of supporting documents, the Gedling Local Planning Document is supported a large number of documents forming the library for the public examination currently underway.

Strategic Housing Land Availability Assessment

37. The SHLAA undertaken during 2015 across Nottingham City, Broxtowe and Gedling sought suggestions for potential sites that may be suitable for housing.

38. The Strategic Housing Land Availability Assessment is an annual review of potential housing sites. Its purpose is to help us understand where and when housing could be built in the future.

39. Sites in the Strategic Housing Land Availability Assessment are assessed against a range of criteria to establish their suitability, availability and achievability for development. The results of the Strategic Housing Land Availability Assessment feed into the production of development plan documents including this Neighbourhood Plan and the Gedling Local Planning Document.

40. The assessment includes land that has come forward from a range of sources, including sites that have already been granted planning permission and sites that have been put forward by landowners and developers.

41. It is important to note that inclusion in the Strategic Housing Land Availability Assessment process does not in itself allow for development to occur on site and that planning permission must still be granted. Some of the sites in the assessment can only come forward if planning policy is changed. Decisions to change planning policy are taken through the development plan process.

42. The SHLAA is an online tool, the snapshot below illustrates the latest position following the 2015 call for sites.
43. Within the Parish of Papplewick, two sites were identified as being suitable (site 806 on Mansfield Road) or suitable to policy change (site 976 north of Altham Lodge). Of these the site on Mansfield Road has planning permission for residential development in the form of a replacement dwelling (2013/0772).

44. Neither of these sites have been allocated for development in the Gedling Local Planning Document Publication Draft. The Site Selection Document for the Gedling Local Planning Document Publication Draft also assessed the site north of Altham Lodge, now referred to as Site A3, it concluded as follows:
### A3 North of Altham Lodge

<table>
<thead>
<tr>
<th>Size</th>
<th>0.81 ha</th>
<th>Number of Dwellings</th>
<th>15 homes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Brownfield</td>
<td>100% Greenfield - currently a paddock</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### SHLAA Conclusion
The site has not yet been assessed through the SHLAA. Given its location, it is likely that the site would be assessed as “may be suitable subject to policy change”. The conclusions would likely identify the adjacent Conservation Area and access as constraints.

#### Infrastructure
- **Utilities**: No requirements identified
- **Emergency**: No requirements identified
- **Education**: 3 primary school places and 2 secondary school places. Estimated cost £56,900.
- **Health**: Potential contributions to primary healthcare likely based on the multiplier of £551 per dwelling £8,265
- **Green Infrastructure**: Potential offsite contribution
- **Community Facilities**: No requirements identified
- **Other**: No requirements identified

#### Sustainability Appraisal

#### Green Belt
This is the North of Altham Lodge site in the Green Belt Assessment – Addendum (Dec 2015).

The site is well connected to the settlement although this results in a significant impact on the setting of the nearby heritage assets. There is no development on site although the site could be considered urban fringe. Moderate defensible boundaries.

#### Compliance with the ACS
The site is located adjacent to the village and is therefore consistent with Policy 2.3(a) of the ACS. The site is located within the Green Belt. Policy 3.3 of the ACS requires consideration of non-Green Belt sites before Green Belt sites. The principle of development of this site does not conflict with other policies in the ACS.

#### Highways
Satisfactory access achievable on Billworth Way despite sharp bend in road to south of site. A footway on eastern side of road would need to be provided.

#### Historic Environment
Major Impact on Historic Asset - The development of the site would have a major impact on the Conservation Area.

#### Consultation Response
The site was not included in the Issues & Options stage. There would likely be objections due to the loss of Green Belt and impact on the Conservation Area and local infrastructure.

#### Conclusion
The site is well connected to the existing settlement and has some Green Belt value due to the lack of development and contribution to the setting of the Conservation Area. Development would have a major impact on the Conservation Area and its setting.

The site can be considered for allocation.
45. Areas of special architectural or historic interest are designated as Conservation Areas to help preserve and enhance them for future generations.

46. A draft Papplewick Conservation Area Appraisal was produced to highlight qualities of the area that are seen worthy of protection and enhancement. The appraisal was never finalised, however the document and associated maps provide useful background information.
47. The draft Appraisal defines the special interest of the Papplewick Conservation Area as being:

“A number of features are key to the special architectural and historic interest of Papplewick, and these are best summarised as follows:

- the prevalence of vernacular buildings, largely associated with farming - whether as farmhouses, cottages, or subsidiary buildings such as barns;
- construction materials - particularly the predominant honey-coloured, local stone, used for buildings, boundary walls and embankments, which provides coherence;
- the retention of historic architectural details - particularly with regard to door and window openings, and timber, horizontal sliding sash windows;
- the sense of enclosure (provided by either greenery or the stone buildings) along Church Lane, Bleadworth Waye (to the north of Top Farm), Linby Lane, and Main Street, and the way in which this contrasts with a sense of open space and connection with the surrounding farmland along Moor Road, Forest Lane and Bledworth Waye (south of Top Farm);
- the rolling landscape, open countryside around the village, and the use of hedges, and local stone walls and embankments as boundary markers which help to maintain Papplewick’s rural character;
- the meandering road pattern of Church Lane, Bledworth Waye, Hall Lane, Linby Lane and Main Street, which, along with the topography and boundary treatments, provides closed views within the Conservation Area of traditional structures and/or greenery;
- the presence of a medieval building (St James’s Church tower) which, as well as being of special interest in its own right, helps to give a picture of Papplewick’s development over time;
- the contrast between the ‘polite’ architecture of Papplewick Hall, and the vernacular architecture of other historic buildings within the village;
- the contrast between the open views of farmland to the east, and the park and Hall to the west (from Bledworth Waye), which add extra interest to this part of the Conservation Area;
- the survival of earthworks from the middle ages or medieval times, and the remnant of the hollow way, which help to connect the village with its earliest settlers.

All of these key features contribute to the rural character of Papplewick, and help to provide its ‘sense of place’. Other contributory factors include the generally high level of maintenance of front gardens, the abundance of greenery, and the use of small stone blocks (particularly at the entrance to Hall Lane) to manage verge parking.”

48. The draft Appraisal also defined a number of buildings considered to be of local interest, areas of significant landscape features and open space, together with features that make positive or negative contributions to the streetscene. The draft Appraisal also identifies key views and vistas.
Map 3 Significant Buildings and Walls

Draft Papplewick Conservation Area Appraisal

© Crown Copyright - OS Licence No. LA100021246
Retail

49. The Broxtowe, Gedling, Nottingham and Rushcliffe Retail Study 2015 does not set out any particular requirements for Papplewick.

Employment

50. The Nottingham City Region Employment Land Provision Study does not set out any particular requirements for Papplewick.

Housing

51. As detailed in the Gedling Five Year Housing Land Supply Assessment 2016, within Papplewick there is only 1 site on Mansfield Road that has an extant planning consent for a single dwelling.

Heritage

52. A document was produced in October 2015 Impact of Possible Development Sites on Heritage Assets in Gedling Borough Council (to inform the preparation of the Local Planning Document).

53. The purpose of the document is to assess the impact of the development of possible development sites in the Borough on the range of heritage assets, including Listed Buildings (and their settings), Conservation Areas, Registered Parks and Gardens, Scheduled Ancient Monuments, local interest buildings and other non-recorded historic buildings.

54. This document was supplemented by an Assessment of Impact of LPD Development Sites on Scheduled Monuments produced in January 2017 and amended in February 2017.

55. In relation to Papplewick the documents confirm the following: “Linby and Papplewick Conservation Areas are least affected by possible development sites.”
The sites in blue on Schedule A are not considered to have an impact on heritage assets. The sites in yellow on Schedule B are considered to have an impact on heritage assets.

56. The assessment draws the following conclusions with regard to the likely magnitude of impact on heritage assets.

<table>

Statutory Heritage Records

57. The Statutory list of Listed Buildings cites the following in Papplewick:

Grade I
- Papplewick Hall, off Blidworth Waye (Formerly Main Street)
- Church of St. James, Church Lane

Grade II*
- Engine House, Boiler House and workshop at Papplewick
- Pumping Station, Longdale Lane
Grade II

- Chetwynd House and Boundary Wall, off Blidworth Waye (Formerly Main Street)
- Stable range at Papplewick Hall off Blidworth Waye, (Formerly Main Street)
- Walled kitchen garden 100 metres north of Papplewick Hall, Off Blidworth Waye
- Top Farmhouse and adjoining stables, Blidworth Waye
- Barn and stable at Top Farmhouse, Blidworth Waye
- Gate piers and boundary wall, Church of St. James, Church Lane
- 2 headstones 8 metres south-east of south porch, Church of St. James, Church Lane
- Chest tomb 8 metres south of south porch, Church of St. James, Church Lane
- 3 headstones 10 metres south of Tower, Church of St. James, Church Lane Obelisk 20
- metres north-west of Vincent Lodge, Forest Lane
- The Griffins Head, Forest Lane
- 1 and The Barn, Linby Lane
- Boiler house chimney at Papplewick Pumping Station
- Smithy, stable and cartshed at Papplewick Pumping Station
- Cooling pond at Papplewick Pumping Station (Formerly listed as Retaining Walls to Reservoir)
- Deputy’s house at Papplewick Pumping Station
- Superintendent’s house at Papplewick Pumping Station
- Boundary wall and gates at Papplewick Pumping Station
- 9a, 9b, 11,15, 17, 19, 21, 23, 25 Main Street
- 49 (Pembroke Cottage), 51 and 53 Main Street
- The Old Post Office, 55 Main Street
- Morton’s Farmhouse, 57 Main Street
- Stable and garage to south of Morton’s Farm, Main Street
- Papplewick Lodge and adjoining stables, Main Street
- Sundial 16 metres north of Papplewick Lodge, Main Street
- 67, 69, 71,73 Main Street (Formerly listed as Nos 68-71)
- Howe Plantation Obelisk, 70 metres north-east of Woodland Grange, Mansfield Road
- Boundary stone 500 yards west of Mansfield Road
- Boundary stone 30 metres north of Howe Plantation Obelisk, Mansfield Road
- Boundary stone to north of Papplewick Pumping Station, Longdale Lane, at SK 58357 52201
- Boundary stone to north of Papplewick Pumping Station, Longdale Lane, at SK 57454 52320
- Boundary stone at entrance to Newstead Grange at SK 55276 52573

58. The Statutory list of Ancient Monuments cites the following in Papplewick:

- Papplewick Pumping Station

59. The Statutory list of Historic Parks and Gardens cites the following in Papplewick:

Grade II*

- Papplewick Hall

Grade II

- Papplewick Pumping Station

60. The Conservation Area Appraisal identifies the following local heritage designations:

Buildings of Local Interest

- Gateway to Papplewick Hall, Blidworth Waye
- Wheelwrights Cottage, 30 Main Street
- West View Farmhouse and adjoining outbuildings, 46 Main Street
Other Significant Buildings

- Gardener's Cottage, Hall Lane
- Ward Cottage, Blidworth Waye
- 11 Linby Lane
61. A Landscape Character Assessment was undertaken by URS in December 2014. This work has been undertaken to assess the impact of development on specific sites in terms of both landscape and its visual impact and to identify any opportunities for mitigation. This has no particular implications for Papplewick.

62. The Green Space Strategy 2012-2017 prepared by Gedling Borough Council provides a vision and objectives for how the Council publicly owned green spaces should be planned and managed. It highlights some key data relating to Papplewick as follows:

- At the time of the 2012 study there was no waiting list for allotment plots
- The Church graveyard is at full capacity
- Papplewick has no alternative burial ground provision

63. The Local Green Space Report 2016 identifies one site in Papplewick for designation as a Local Green Space at Walk Mill Pond / Moor Pond Woods.
Appendix E – Papplewick

P1 Walk Mill Pond / Moor Pond Woods
The site lies between Hucknall, Papplewick and Linby. The site was developed by the Robinson family in the late 18th century as a system to supply water to their cotton mills. The woods are now a wildlife and recreational site, there are well-maintained footpaths and benches throughout.

To the west of the site lies the River Leen which runs through Linby, to the east is Moor Road (B683). The sites lies close to existing development and agricultural land is notable in the surrounding landscape.

<table>

<th>3. Is it local in character and not an extensive tract of land?</th>
<th>Conclusion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Walk Mill Pond / Moor Pond Woods (P1)</td>
<td>- Green Belt - Local Wildlife Site (ENV36) - Mature Landscape Area (ENV37) - Protected Open Space – Private (R1)</td>
<td>The site is close to Papplewick village and the North of Papplewick Lane site allocated in the Aligned Core Strategy. Access to the site is via the main road (Moor Road). The site is adjacent to the residential area within Ashfield District.</td>
<td>Moor Pond Woods is an area of archaeological and ecological interest that lies to the west of the village, between Linby and Papplewick. The woods occupy the site of a system of ponds and channels that fed water to cotton mills in the 18th century. The site is accessible to the public via a network of surfaced paths. The Moor Pond Woods Project was inaugurated in 1999 and the area is managed jointly by the ‘Friends of Moor Pond Wood’ and Nottinghamshire County Council. The site is presently designated as a Local Wildlife Site.</td>
<td>The site area is 3.87 ha and it is considered not to be an extensive tract of land.</td>
<td>The site has historic, recreational and wildlife value. Recommended that the site is designated.</td>
</tr>
</tbody>
</table>
64. Linby Quarries SSSI lies mostly within the neighbouring parish of Linby but is also partially within the Papplewick Neighbourhood Plan Area. Moor Ponds Woods is a designated Site of Importance for Nature Conservation, it straddles the Papplewick and Linby boundary:
65. The [Greater Nottingham Strategic Flood Risk Assessment](#) does not raise any significant issues for Papplewick. It was prepared by Black & Veach in June 2008 (updated October 2008 and October 2010) in consultation with the Environment Agency to inform how future development should take place and to assist emergency planning in Greater Nottingham.

66. Data produced by the Environment Agency highlights the following areas at risks of flooding in Papplewick:
Papplewick Neighbourhood Plan - Issues Scoping & Evidence Base February 2017

67. Surface water flooding potential poses a limited constraint on future development opportunities within Papplewick.

68. The Greater Nottingham and Ashfield Outline Water Cycle Study February 2010 prepared by Entec consultants, considers in more detail the likely water related constraints and impacts of the development levels set out for Greater Nottingham and Ashfield. In relation to Papplewick it does not identify any specific findings.

69. A number of documents have been prepared regarding the issues associated with a review of the Green Belt. The methodology framework was prepared by Ashfield, Broxtowe, Gedling and Nottingham City Councils to establish a common means of assessing the purposes of the Green Belt as part of a robust assessment of Green Belt boundaries within their area. If required, more detailed methodologies informed by local circumstances will be set out by each local authority in their Green Belt review documents.

70. Gedling has undertaken an assessment of broad areas and specific sites against the purposes of the Green Belt. The Green Belt Assessment does not itself determine whether or not land is included in the Green Belt or not. It is the role of the Local Planning Document to formally revise Green Belt boundaries and to allocate land for development.

71. This assessment continues to identify Papplewick as a village ‘washed over’ by the Green Belt. It states: “The Green Belt around Papplewick is valuable in achieving the purposes...”
of the Green Belt in particular due to the narrow gaps with nearby settlements and the historic character of the area. Broad Areas to the east are of lower value as there is less risk of coalescence with other settlements. 5.16 Papplewick is a traditional linear village with a mix of open and less open areas such that parts of the settlement contribute to the openness of the Green Belt.”
72. The assessment identifies scores, lower scores mean that a site or general area is, overall, less valuable in terms of the Green Belt. Whilst a site may have a low overall score, it may score particularly highly for one single Green Belt purpose. In these instances, it could be considered to be of sufficient importance on that one single purpose for the site to be
retained as Green Belt. This will be particularly important for the following Green Belt purposes:
- Check the unrestricted sprawl of settlements.
- Prevent neighbouring towns from merging into one another.
- Preserve the setting and special character of historic settlements.

73. Whether sites are so important for one of the Green Belt purposes that they should not be removed from the Green Belt will be considered as part of making decisions about which sites should be allocated. No changes have been made to the Green Belt with regard to Papplewick.

<table>
<thead>
<tr>
<th>Broad Area or Site</th>
<th>Score (out of 20)</th>
<th>Comment</th>
</tr>
</thead>
<tbody>
<tr>
<td>East</td>
<td>15</td>
<td>The Area is open with few defensible features and no non-agricultural development. The Area has one boundary with the settlement which includes a significant proportion of the Conservation Area; rising land to the east will exacerbate the impact on the historic character.</td>
</tr>
<tr>
<td>South East</td>
<td>17</td>
<td>The Area has only one boundary with the settlement and few defensible features. There is ribbon development along Moor Road and Forest Lane although the majority of the Area has no encroachment. The Area would only impact on a small part of the Conservation Area although there would be a significant reduction of the gap to Hucknall.</td>
</tr>
<tr>
<td>West</td>
<td>19</td>
<td>The Area makes a significant contribution to the historic character of Papplewick and development would result in the merging of Papplewick, Linby and also Hucknall. There is only one boundary with the settlement and few defensible features. There is ribbon development along roads but the majority of the area is free from encroachment.</td>
</tr>
</tbody>
</table>

Stage 2
No Stage 2 Assessments due to the lack of potential development sites and the general high value of the Green Belt.

74. The Habitats Regulation Assessment (HRA) Screening Record was undertaken for the Core Strategies. This found that there could be potentially significant effects on parts of the prospective Sherwood Forest Special Protection Area. It concluded that a precautionary approach should be followed and that policies should not encourage further visitors to this part of the Greenwood Community Forest.

75. Supplementary Screening Records in reference to Calverton and Top Wighay Farm in Gedling were subsequently undertaken. The Screening Record for Top Wighay concluded that the scale of development would not be likely to have significant impact on any European site. Potential effects on the Sherwood Forest prospective Special Protection Area could not be ruled out. Following consultation with Natural England, a number of appropriate mitigation measures are identified and required to be in place to avoid significant effects from development at Calverton. No measures are required in Papplewick.
Growth and Infrastructure

76. The Greater Nottingham Infrastructure Delivery Plan, considers infrastructure requirements related to the Core Strategies of Broxtowe, Erewash, Gedling, Nottingham and Rushcliffe Councils. It seeks to ascertain what additional infrastructure is needed to support the level of growth, when it is required and the resources needed to deliver it. The report also considers the viability of strategic sites, as there are no allocations proposed in Papplewick it does not set out any definitive recommendations for the Parish.

77. Parking Provision for Residential Developments Supplementary Planning Document from 2012 sets out to ensure that new development is supported by the appropriate level of parking provision to accommodate demand, without exceeding demand which would lead to poorly designed developments that are dominated by the car, and without resulting in a shortfall which could lead to potential problems for highway safety.
Papplewick Neighbourhood Plan 2017-2028

Issues Scoping Document & Evidence Base February 2017

Papplewick Neighbourhood Plan is led by a Working Group made up of local volunteers and Parish Councillors supported by Papplewick Parish Council
